CardValet® lets you:

- Turn your debit card on and off at your fingertips
- Establish transaction controls for dollar amount limits, merchant categories and geographic locations
- Receive alerts when your debit card is used, approved or exceeds the transaction controls set by you
- Stay informed of potential fraud with alerts on attempted, declined transactions
- Get real-time balances for your accounts

Control Spending

If you're trying to establish or stick to a budget, CardValet® can help. Set spending limits for general use or specify thresholds by merchant types, such as gas, groceries or retail stores. You can also establish these controls by location. The flexible app lets you change these parameters anytime with ease via your mobile device. Going on vacation? Holiday shopping? Simply update your transaction controls to fit your spending needs. If you plan to travel, it is very important to contact the bank to setup a travel alert setting on your card(s).

Fraud Protection

A lost or stolen card is just one area of concern in today's world where Identity theft, skimming and other attacks are an unfortunate reality. Turning your debit card off when you're not using it helps safeguard against fraud. When your card is "off," no withdrawals or purchases will be approved. Transaction controls that allow your debit card to work only in specific locations or geographic areas, add another layer of protection. And real-time alerts keep you informed when your card is approved or declined.

Business Use

CardValet® is a great tool for controlling business spending on a debit card. Use the transaction controls for merchant codes, location and thresholds to ensure employee spending adheres to your company policies.

Review Balances and Transactions

Monitor your finances from anywhere. Use the CardValet® app to check your account balances.

CardValet® gives users the ability to control their bank debit cards from the convenience of their Apple or Android smart-phone device, thereby reducing the risk of fraudulent activity. With just a few taps, users can block all transactions on a card, report a lost or stolen card, and block transactions based on transaction amount, location, and merchant type. Users can also enable alerts within the app for real-time notifications of card transactions via push notifications on their device.

Play it Safe

Payment cards offer both convenience and risk. You can make purchases easily, but if your cards fall into the wrong hands, your personal accounts are vulnerable. Safeguard your information with CardValet®, the mobile app that lets you protect your Platte Valley Bank debit cards against fraud and theft by receiving real-time alerts to ensure your cards are used only by you.

Budget Conscious

Overspending is easy. Now, sticking to your budget can be too. Take control of your finances by setting spending thresholds, specifying merchant types and turning your Platte Valley Bank debit cards on and off. Want to spend \$100 at the grocery store? Limit your spending at the shoe store? CardValet® empowers you to control your Platte Valley Bank debit card spending in real-time.

Parental Controls

Whether they're at the local mall or away at college, your kids want to spend money. You're not their personal ATM, but you do need a way to support their needs, while managing their spending. Enter CardValet®. With convenient features like threshold limits, merchant categories and location and on/off controls, you decide where, when and how your children use their Platte Valley Bank debit cards.
